Expanding Horizons

Biach Industries, Inc. Quarterly Newsletter Vol. 9 No.1 August 2008

General Industry News:

Perry Supply

ordered a custom made tensioner for a drag line application.

Perry Magnetics

purchased a custom tensioner for use in the Kaolin industry.

NuVision Engineering

has ordered six custom made 34" Box Presses for use in their mechanical stress improvement process (MSIP) for welds in large diameter piping.

BIACH'S 11TH ANNUAL OWNERS GROUP WORKSHOP WAS A HUGE SUCCESS!

With 21 utility representatives coming from 12 sites plus 8 attendees from Westinghouse, GE Hitachi, AREVA and Master Lee, the information exchange and participation was significant. A panel discussion by industry Top Performers told the audience "just how they do it" and created a lot of discussion. Walt Muskopf of the Calloway plant gave a presentation on performance at his site and upgrades he incorporated. Other presentations included Pre-Outage Prep, Safety Issues, Lessons Learned, Maintenance Schedules and Peripheral Equipment.

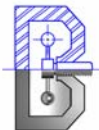

Greg Smith from PG&E receives a Top Performer Award from Richard Hill, President of Biach Industries

John Abel from Braidwood receives a Top Performer Award from Richard Hill, President of Biach Industries

Top Performer trophies were awarded to those sites achieving excellence in stud tensioning to: Susquehanna, Millstone 2, LaSalle, Braidwood, St. Lucie, and Diablo
